

# HD 130° Backup Camera with 18 Infra-Red Illuminators

RVS-770-HD

This full HD backup camera is the clearest and greatest camera available in the market today. It boasts 720 horizontal scan lines of HD display resolution. Ultra-wide 130° viewing angle with 18 infra-red illuminators means you can see in total darkness. The camera also features a built in microphone to hear what is behind you. Completely weather proof with a IP69K rating, means this HD camera is strong and reliable and comes with a full year warranty. This unique camera is the future of safety technology.

**Note:** This camera is only compatible with the HD Backup Camera System (RVS-770613-HD).
