

# RVS-DS55

Waterproof Wireless Transmitter for SimpleSight™ Series

## The next generation of wireless is here!

Use the RVS-DS55 to make any CMOS camera wireless. This wireless transmitter allows you to add any of our CMOS cameras to The SimpleSight™ Series Wireless Backup Camera Systems (RVS-155W, RVS-255W, RVS-355W). The RVS-DS55 works at a range of 100 feet. The transmitter is waterproof with an IP68 rating, allowing you to install it outside your vehicle. No more spending hours running cabling through your vehicle, simply use this system to connect your camera and monitor without the wiring hassle.
