

The Switcher

The Switcher Box

RVS-501N-3

The Switcher Box gives you all the advantages of the Multiplexer when connecting our cameras to an external monitor. It can connect to any monitor with RCA connections allowing connection for up to three cameras and gives you the ability to trigger each camera separately. This Switcher Box brings incredible flexibility when connecting our cameras to external monitors.

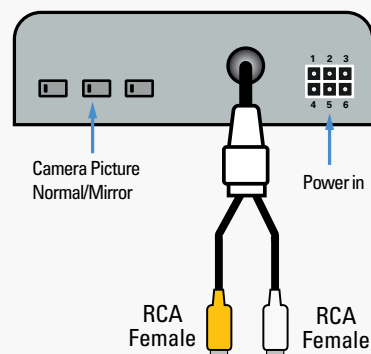

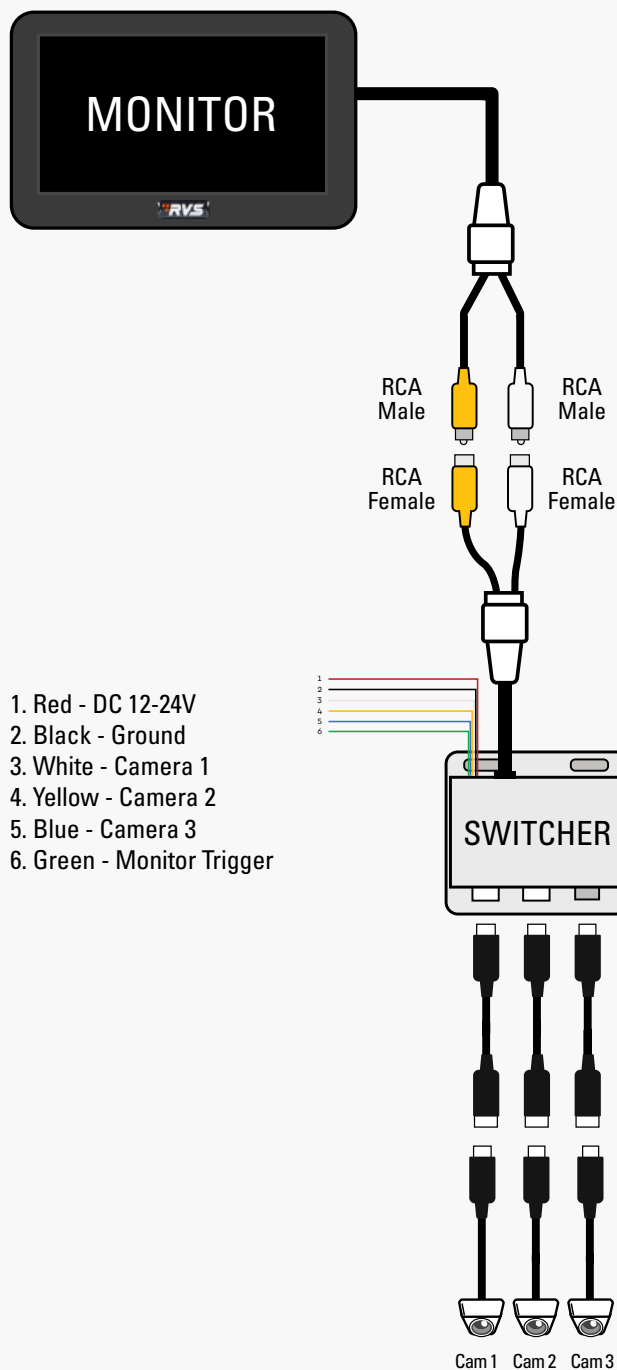

- Easily connects RVS cameras to external monitors
- RCA Connection - can connect with any A/V input
- 3 Camera Inputs
- Trigger Wire for Each Camera
- Mirror/Normal Switch for Each Camera
- Compact Box: just 4 IN x 4.5 IN x 1.25 IN
