

inView 360° HD Around Vehicle Monitoring System

RVS-02-360

The RVS-02-360 can be equipped with 4-6 Full HD ultra-wide fish-eye cameras that seamlessly merge together their respective images to create a complete 2D overhead view of your vehicle and its surroundings.

The inView 360 HD system has a built-in DVR supporting H.264 video format. The system supports up to 4 solid-state SD cards in the ECU with a maximum total capacity of 1 TB.

Use the 360° view to assist with parking, check blind spots, or navigate narrow roads. Choose a 7" or 10" HD monitor.

The RVS-02-360 supports the use of a graphic overlay for large vehicles such as fire trucks and wide commercial vehicles. The extent of the outrigger is configurable.

This versatile system can also be connected directly from the ECU to a Mobile DVR as a single channel.

Integrate our 6-sensor system into the inView 360° HD for audible and visual proximity alerts when backing up, parking, or seeking clearance.

Full Around Vehicle Monitoring (AVM)

The system comes standard with 4 cameras (or 6, in the case of larger vehicles) to provide a 2D, stitched-together, overhead view of the vehicle. The additional 2 cameras can also be used to monitor the driver/cargo areas. All connected cameras are recorded.

Out-of-the-box Recording

The system features solid state recording in HD and unlike most around vehicle monitoring (AVM) systems on the market, there is no need to split video signals and feed to a DVR system.

Automatic Triggers

Set triggers to have the camera view change automatically (left/right/reverse/default).

Customizable On Screen Overlay

Customize the width, length, and position of the overlay for specific applications.

Large Storage Capacity

Records onto 4 solid state storage SD cards, 256 GB each, for a total storage capacity of 1TB.

Advanced Features

The RVS-02-360 has a built-in G-Sensor, and is equipped with GPS and WiFi.

Instant Reverse

The system activates the rear camera image with 2 seconds of ignition, enabling FMVSS-111 compliance.
