

WiFi Hitch Camera

RVS-83112-WiFi

This small magnetic hitch camera connects via WiFi to your mobile device allowing you to see the camera view on your device's screen. The system works with both Android and Apple devices with a free app called "iRearCam". With this camera system, not only will you be able to view the camera on your mobile device but you'll be able to record still images straight to your device as well! Multiple users can view the camera on the iRearCam app at the same time. The strong WiFi signal provides an uninterrupted connection for distances up to 50ft! The camera is powered by a rechargeable battery and has a powerful magnetic base which can attach to the back of your vehicle for each hitching. The RVS-83112-WiFi comes included with a full year warranty.

iRearCam App: Scan the QR code for your device below to install the iRearCam App.

Pro Tip: You don't need a pre-existing WiFi or internet connection for this to work. The transmitter creates a WiFi network that will work anywhere.
