

# RVS-MV3

## SURFACE MOUNT BACKUP CAMERA

This backup camera easily mounts at the back of the vehicle and provides a 170° all-encompassing viewing angle behind the vehicle. With 620 TV Lines, the picture quality this camera provides is super sharp and a completely waterproof encasing allows it to operate in all weather conditions. Backup camera comes with night vision so that with just a little ambient light, the camera will provide a great view even at night. Camera has the option for a 5 Pin connection (to connect to our systems) or an RCA adapter (to connect to an external display).
