

# RVS-718

## G-SERIES REAR VIEW REPLACEMENT MIRROR MONITOR

This Replacement Mirror Monitor is so good looking you'll catch yourself looking at it rather than the reflection. Its 4.3" monitor is placed to the left of the mirror while the entire surface is reflective and acts as a mirror. For an absolute perfect backing up experience, this monitor comes with adjustable grid lines, allowing you to adjust the grid lines to be completely accurate regardless where you mount the camera.
