NOTE!

Please read all of the installation instructions carefully before installing the product. Improper installation will void manufacturer’s warranty.

Congratulations on purchasing a Rear View Backup Camera System!

With this manual you will be able to properly install and operate the unit.

The Backup Camera System is intended to be installed as a supplement aid to your standard rear view mirror that already exists in your vehicle. The Backup Camera System should not be used as a substitute for the standard rear view mirror or for any other mirror that exists in your vehicle.

In some jurisdictions, it is unlawful for a person to drive a motor vehicle equipped with a TV viewer or screen located forward of the back of the driver’s seat or in any location that is visible, directly or indirectly, to the driver while operating the vehicle.
Please read the entire manual and follow the instructions and warnings carefully. Failure to do so can cause serious damage and/or injury, including loss of life. Be sure to obey all applicable local traffic and motor vehicle regulations as it pertains to this product. Improper installation will void manufacturer’s warranty.

**USAGE:**

- The Rear View Camera System is designed to help the driver safely detect people and/or objects, helping to avoid damage or injury. However, you the driver, must use it properly. Use of this system is not a substitute for safe, proper or legal driving.

- Never back up while looking at the monitor alone. You should always check behind and around the vehicle when backing up, in the same way as you would if the vehicle did not have the Rear View Camera System. If you back up while looking only at the monitor, you may cause damage or injury. Always back up slowly.

- The Rear View Camera System is not intended for use during extensive back-up maneuvers or backing into cross traffic or pedestrian walkways.

- Please, always remember, the area displayed by the Rear View Camera System is limited. It does not display the entire panorama that is behind you.
• Electric shock or product malfunction may occur if this product is installed incorrectly.

• Use this product within the voltage range specified. Failure to do so can cause electronic shock or product malfunction.

• Take special care when cleaning the monitor.

• Make sure to firmly affix the product before use.

• If smoke or a burning smell is detected, disconnect the system immediately.

• Where the power cable may touch a metal case, cover the cable with friction tape. A short circuit or disconnected wire may cause a fire.

• While installing the Rear View System be careful with the wire positioning in order to avoid wire damage.

• The Rear View System should only be used when the vehicle is in reverse.

• Do not watch movies or operate the monitor while driving; as it may cause an accident.

• Do not install the monitor where it may obstruct drivers view or obstruct an air bag device.

• Dropping the unit may cause possible mechanical failure.

IN NO EVENT SHALL SELLER OR MANUFACTURER BE LIABLE FOR ANY DIRECT OR CONSEQUENTIAL DAMAGES OF ANY NATURE, OR LOSSES OR EXPENSES RESULTING FROM ANY DEFECTIVE PRODUCT OR THE USE OF ANY PRODUCT.
Before drilling please check that no cable or wiring is on the other side of the wall. Please clamp all wires securely to reduce the possibility of them being damaged while vehicle is in use. Keep all cables away from hot or moving parts and electrical noisy components.

*We recommend doing a benchmark test before installation to insure that all components are working properly.*

Step 1: Choose the monitor and camera locations.

Step 2: Install all cables in vehicle, when necessary a 0.8 (20mm) hole should be drilled for passing camera cable through vehicles walls. Install split grommets where applicable.

Step 3: Once all cables and wiring have been properly routed, perform a system function test by temporarily connecting the system.
Precautions For Use Of Monitor

I. The Monitor is made of glass and plastic. Do not subject it to a mechanical shock by dropping it from a high place, etc.

II. Do not apply excessive force to the monitor surface or the adjoining areas since this may cause the color tone to vary.

III. Clean with a soft dry cloth and/or Windex only.

IV. Do not attempt to disassemble the mirror monitor.

Safety

- Before drilling make sure no cable or wire is on the other side.
- Feed as much cable as possible into vehicle & clamp securely. This reduces the possibility of cable being hooked or snagged.
IN THE BOX

- 7” TFT LCD Monitor With GPS
- Monitor Mount
- 3 Port Power Harness
- 66’ Camera Cable
- GPS Module
1. CAM - Channel Switch
2. M/N - Normal/Mirror, Day/Night Mode (Long Press)
3. Power - Turn Monitor On/Off
4. Menu - Visit Menu
5. Down - Toggle Menu Function Down, Decrease Volume
6. Up - Toggle Menu Function Up, Increase Volume

- 7” TFT LCD Digital Color Touch Display
- GPS Navigation with Sygic Maps
- 3 Channel Power Harness - Supports 3 Cameras
- Built-in Speaker For Camera Mic
- Touch Screen - Monitor Functions Controlled Simply By Touch
Monitor Specifications

Type: TFT LCD
Screen Size: 7”
Aspect Ratio: 16:9
Video Input: 3 Channel
Trigger Capacity: 3 Triggers
Video System: Auto PAL/NTSC
Resolution: 800 X RGB X 480
Brightness: 450cd/m2
Power Supply: 9-36V DC
Audio: Built-in Speaker
Operating Temperature: -20°C ~ +70°C RH 95% Max
Storage Temperature: -30°C ~ +80°C RH 95% Max
**GPS Navigation**

Press the Navigation icon on the interface or ‘SRC’, ‘GPS’ on the panel to switch to navigation mode.
Navigation Setup

Click on the Navigate setup icon to enter the interface shown below.

![Navigate setup interface](image)

GPS Monitor

Click on the Navigate setup icon to enter the interface shown below.

![GPS monitor interface](image)

1. Satellite dataflow
2. Satellite number & signal intensity
3. Longitude, latitude, time
Usual Setting

Press the Usual Setting icon to enter the interface shown below. Press the arrow icons to change the settings.

Touch Screen

Press the Touch Screen icon to enter the calibration interface. Follow the screen prompt, pressing the center of the cursor until it moves to the top left, lower left, lower right and top right respectively.

Once the calibration is completed, you will return the calibration interface. The monitor is now calibrated. It is not necessarily to calibrate before every use.
**Volume**

Click on the Volume icon to enter the interface shown below. Press the arrows to change settings.
